Agenda

Welcome and Introduction

- Brief overview of the workshop aims
- Why ethics and inclusivity matter in scientific communication

Part 1: Integrity in Scientific Communication

- Principles of transparency, honesty, and accountability
- Real-world examples of ethical dilemmas in collaborative research
- Interactive discussion: spotting red flags in research reporting

Part 2: Fostering Inclusivity in Research Teams

- Communication across disciplines, backgrounds, and cultures
- Inclusive authorship and representation
- Group exercise: analysing inclusive vs. exclusive communication styles

Part 3: Case Study & Group Reflection

- Case scenario involving ethical and inclusivity challenges
- Small group discussion and feedback
- Take-home messages: how to apply ethical principles in everyday work

Wrap-up and Instructions

- Summary of key points
- Instructions for the next phase (Verbal Fluency Test and questionnaire)

Organizzazione e coordinamento: CREA-AA, L. Canfora, A. Manfredini
